

### Drevoil Gear Oil 140

This gear oil is a mineral lubricating oil for mechanical transmissions. This lubricant is very stable against oxidation and protects from corrosion and foam-formation.

This gear oil is used in gearboxes, differentials, steering boxes and other transmissions for which the manufacturer not prescribes or even refuses a mineral lubricant with EP-additives.

Performance level:

API GL-1

Density at 15 °C, kg/l	0,899
Viscosity 40 °C, mm <sup>2</sup> /s	460,00
Viscosity 100 °C, mm <sup>2</sup> /s	30,00
Viscosity Index	95
Flash Point COC, °C	325
Pour Point, °C	-9
